

# Hall C Qweak Target Expert Call List

Greg Smith  
May 10, 2010

**Valid May 10, 2010 through July 31, 2010**

The following personnel are available for help with the Qweak target system.  
**Please observe the calling order as given in this table.**

Note: The area code is (757) unless otherwise specified. When you page someone, it generally takes a couple minutes for the page to be received, and another minute or two for that person to get to a phone. If you have not gotten a call back within 5 minutes, assume the page was not received and try another number or the next person on the call list.
